

## **SWIPE - AT- THE - BAY**

### Car Wash Credit Card System

- The First All-In-One device that keeps track of Cash, and Credit, without having ugly add-on boxes.
- SATB® brings credit card processing to Bays, and Vacuums.
- In-Bay Audio includes easy to follow instructions to guide your customers through the use of a credit card or cash. The audio helps customers keep track of the current wash function and the amount of time remaining (cash mode).
- 5W Audio Amplifier with water resistant speaker enclosure.
- SATB® uses a patent pending technology to authorize every credit card transaction before granting service - preventing you from losing money on denied or stolen credit card accounts.
- Single card swipe activates the service for as long as the customer chooses to wash. The minimum startup price is still required and selectable by the car wash owner.
- Dynamic on-screen web and diagnostic reports keeps the customer in touch with the wash at all times.
